49037 Wixom Tech Dr.
Wixom, MI 48393

Cost: FREE ADMISSION!

Continuing Education Credits: 2 Credits

Come and participant in a free hands-on opportunity to create CREFORM masterpieces!

CREFORM

How It's Put Together...Sets Us Apart

Creform is a system of plastic coated steel pipes, joints, and hardware accessories available in 28mm, 32mm, and 42mm diameters that allow you to design and build custom devices that meet the diverse requirements of today's special needs individuals.

Occupational therapists can easily build these lightweight, durable, and agile applications for pediatrics, adolescents, and adults. Examples of CREFORM creations include mobile stability chairs, workstations, adjustable tables, handrails, grab bars, changing tables, display boards, height adjustable computer workstations, stand-up devices, positioning devices, specialized seating, and much more functional equipment.

Presenter David Bergeman is a Senior Manager at CREFORM and will be presenting a variety of adaptive ways that CREFORM can benefit clients in the practice of occupational therapy.

This free CREFORM presentation has been sponsored by the MiOTA Detroit Huron Valley Chapter.
