

ARE YOU AN OCCUPATIONAL THERAPIST WHO HAS EXPERIENCE TREATING TRANSGENDER CLIENTS?

PURPOSE OF THE STUDY

We invite you to participate in a research study that explores how occupational therapists have gained knowledge and skills necessary to treat the transgender and non-binary community effectively. This information can help guide other practitioners in their approaches to increase their level of competence when treating this community.

WHO IS ELIGIBLE?

Interested participants must:

- Be a licensed occupational therapy practitioner.
- Have experience treating at least 1 member of the transgender/gender non-binary community within the last 5 years.
- Feel competent in treating members of the transgender/non-binary community.
- Be 18 years or older.

WHAT TO EXPECT:

This study will begin in August 2021 and will consist of a one-time recorded interview via Microsoft Teams or phone call that will last no more than 1 hour.

WHO TO CONTACT:

If you are interested in this study or have any questions, please contact Rachel Daley, Primary Investigator, Master of Science in Occupational Therapy Student
