#	Other	Date
1	Other than advocating for the profession, MiOTA dosent offer much to members. The website is not helpful/iinformative. I eent to the conference 2 years in a row and much of the offeringgs were the same.	4/14/2015 7:48 PM
2	When I was a member, the benefits of the membership were so minimal that for the expense, it wasn't worth the contribution. I was looking for a more engaged group and the local chapter was not even activated. Besides getting an invitation or two to a workshop (CEU) and the fall conference, there was no other meaningful communication or engagement of the membership. AOTA membership has far more perks and opprotunities to share best practices/information at this point in time.	4/2/2015 7:36 PM
3	The questions are awkwardly stated! If you are asking if I would choose AOTA over MiOTA as the organization stands now yes I select AOTA.	4/2/2015 9:38 AM
4	IT LAPSED AND I JUST HAVEN'T GOTTEN AROUND TO SENDING THE CHECK	4/2/2015 7:40 AM
5	involved in other professional organizations	4/1/2015 3:50 PM

Q5 Identify the importance of the MiOTA conference.

1	I don't understand the ranking system for this question. All if the characteristics listed for this question are important to access but some need improvement in how to navigate the site. I ranked the topics for this question based on 1-5 how easily I can navigate the new site. 1= very difficult to navigate and 5= very easy to access	4/2/2015 7:43 PM
2	Again the responses do not match the type of questions. Answers reflect what the individual values of importance however the question is referring to the current website. If I were to respond I feel that the information would not be valid.	4/2/2015 9:42 AM
3	In this area the catagories do nto relate tot he questions	3/22/2015 9:56 PM

Q10 Do you have any suggestions for MiOTA that would improve our member benefits and/or experiences?

Answered: 9 Skipped: 27

#	Responses	Date
1	None, ranking question did not work correctly	4/15/2015 6:50 PM
2	Lower cost	4/15/2015 11:21 AM
3	more town meetings and social gatherings to share info	4/4/2015 10:43 AM
4	Membership requirement events with give away items and general information regarding MiOTA. Emails, flyers with reminders.	4/3/2015 4:58 PM
5	More chapter networking opportunities to meet other local therapists and either reduced annual dues or the option to pay monthly. Having reduced rates for members for events such as the conference or CEU workshops would also be ways to demonstrate the benefit of membership. Even if there's a fundraising goal for the AOTPAC or lobbying efforts - something tangible to help practitioners understand where their membership dollars are going or at least demonstrate the benefit. Advocacy town hall meetings during OT month is another idea to facilitate discussion and rally therapists to become more knowledgeable on legislation affecting practice and patients.	4/2/2015 7:51 PM
6	Response time. Stay up to date and current with trending OT news, information is not presented in a timely manner. When someone raises their hand to help, encourage them rather than blocking them. Provide them with mentorship. Expose them to current available opportunities. Involve students more, after all they are the next generation.	4/2/2015 9:48 AM
7	I really didn't see the benefit of being a member of Miota, so after a few years I let it drop. Sell it to me, why should I be a member? What can you do to help me serve my patients better?	4/1/2015 4:09 PM
8	Get information out to members in a TIMELY manner - I let my membership lapse after the 2014 conference when MiOTA shared licensure information/updates that had apparently been out for months but they neglected to share until October??? With that type of communication, membership is not worth my money.	4/1/2015 8:48 AM
9	Increased information on the importance for legislation purpose and opportunities.	3/27/2015 7:42 AM
